

## Position Summary:

We are looking for our next great team member who will assist the foreman and crew with various tasks to build metal buildings, erect steel structures, and/or install metal roofs/walls. The Welder / Iron Worker role is an integral part of our team who aids in all tasks necessary to get the job done.

The schedule for this role is typically Monday -Friday, with the possibility of working on Saturdays when needed. Scheduled hours will vary based on job needs.

## Job Duties:

- Work at heights above ground level
- Rig and connect steel members
- Perform welding with certification in FCAW (NR232)/SMAW (E7018)
- Operate equipment such as forklifts, scissor lifts, and boom lifts

## Qualifications and Skills:

- Strong organizational skills with a focus on maintaining a clean and safe work environment
- Effective communication skills, both written and oral
- Self-motivated with the ability to work independently
- Comfortable working at heights exceeding 20 feet
- Welding and mechanical experience

## Minimum Requirements:

- Ability to pass a background check and drug screening
- Availability to travel and potentially stay out of town from Monday to Friday
- Proficiency in using and reading a tape measure accurately
- Adherence to all safety rules and regulations related to the work being performed

## Job Benefits:

- Positive and encouraging work environment
- Competitive wages and paid holidays
- Medical, dental and vision benefits
- 401k with employer contribution
